

PROTOTYPE - CHINA - 1

CATÉGORIE : Prototype

Headquarter and plant :

I. HISTORY

Founded in 2010, specialized in CNC machining, 3D Printing, Vacuum casting and plastic injection molding services.

Over 10 years' experience in prototype and tooling manufacturing.
Professional engineering team & Massive capability with 6000 m² factory

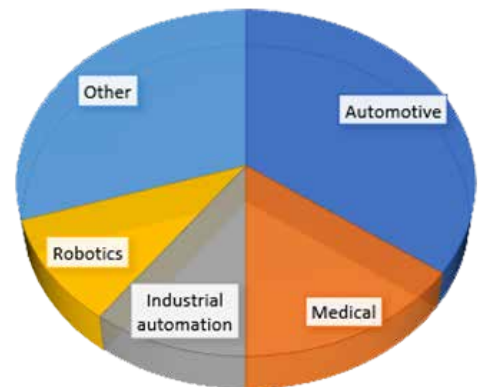

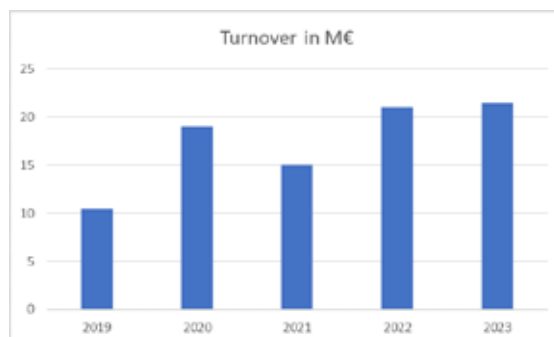

II. MAIN BUSINESS SEGMENTS & CUSTOMERS

>200 employees

€ 21 M

Main customers :

Business segments :

- Automotive
- Automation & Robotics
- Aerospace
- Médical
- Electronic & lighting

stryker®

BorgWarner

PHILIPS

faurecia
inspiring mobility

III. CAPACITY

1. CNC machining
2. Injection Molding
3. 3D printing : max 600*600*400mm
4. Sheet metal
5. Vacuum casting : max 2200mm*1100mm*900mm
6. Surface finishing

IV. PROCESS

V. CERTIFICATION

- ISO 9001
- ISO 13485
- IATF 16949
- AS9100D

VI. SUPPORT

Windeco can support with our local agent based in Asia

- He will follow-up closely and support in developing and implementing the production processes
- He speaks : Chinese, Malaysian, Singaporean, and English

Windeco has also a European based colleague to support in a smooth relationship

- Taiwanese native, she speaks : Chinese, Taiwanese, French, English

VII. PRODUCTS

Medical parts

Automotive parts

Aerospace parts

Lighting parts

Robotics parts
