V. ORGANIZATION

2 plants in Taiwan, 2 plants in China

VI.

In 2003, the semiconductor division was created to serve the growing demand from semiconductor customers who are looking for alternative sealing solutions to reduce maintenance cost. A team of experienced specialists was assembled to support the division. Semiconductor products are manufactured, packaged and tested in our class-10000, class-100 and class 1 clean rooms using advance equipment and high purity elastomers.

VII. CERTIFICATION

- IATF 16949:2016
- ISO 9001:2015
- ISO 14001
- AS9100
- ISO 13485

VIII. PRODUCTS

Gasket for pneumatic control

PTFE lip seals

Automatic transmission kit

Shaft seals

Shock absorber seals
